WHY A MALARKEY SHINGLE?

Unlike standard roofing shingles, Malarkey shingles are made of Rubberized Asphalt for superior all-weather resilience, Upcycled Rubber & Plastics to reduce landfill waste, and Smog-Reducing Granules that help clean the air.

Better performance, and better for the environment – why not a Malarkey shingle?

SUSTAINABLE, HIGH-PERFORMANCE, ROOFING SHINGLES.

DESIGN YOUR ROOF

Let's get started on your new roof

To help you visualize what you're buying, try our new Roof Designer and explore our color options and shingle brands. This helps you take the guess work out of a big purchase. Begin designing by selecting one of our homes that most resembles yours or upload a photo of your own.

Please note, you will have more options with the ones we provide, but yours will work just fine as well.
